FINES UNDER NEW LAW

Allege Richmond Transfer Company
Falled to Place Danger Signal.

The Richmond Transfer Company, Incorporated, was fined \$5 by Justice Crutchfield yesterday morning on a charge of failing to place a danger signal over the door of the garage sat 115 West Canal Street by day and night. An appeal was taken.

This is the first case of the kind to come up in Police Court since the ordinance requiring the placing of danger signals over doors of garages was passed by the City Council. It is required that at night the signal shall be a red light, and that automobiles entering or leaving the garage shall warn pedestrians of their approach.

View, however, of the casualties I knew would occur in September by reason of deficiencies, and again by reason of homesick and induged boys in September, I have added a large number from our expected list to our accepted list.

"You will see from the summary that there is danger of being overcrowded as it is, and there is very little chance of others being accepted little chance of others being accepted before the mid-year."

As the board and the superintendent see it, everything points to the most successful year in the history of the institution. TO RECEIVE CASH

COUNCIL TO END STATION INQUIRY

Committee Will Hold Final Board Directs Davis to Submit Hearing and Prepare Report To-Night. The Special Council Committee on

Union Station, it is expected, will comcases. If the practice of the last meeting is followed each speaker will be allowed a limited time, and will require extensive surveys.

The order followed an application yesterday by citizens from North Richmond, asking that their community be supplied with water by the city. In lieu of acting upon this application alone, the beard voted to investigate the scheme of supplying water to the whole northern territory bounded on the cast by the Chesapeake and Ohio Railway, and on the west by the line running through the New Reservoir. The board adopted the following report in favor of a union station at Fifteenth and Main Street was unlikely.

The Council resolution, under which the committee acts, requires it to report only upon the advisability of the construction in Richmond of a union passenger station to be used by all the roads. The rivalry of the Main Street and Hermitage Club sites is an injected issue, and the committee is under no obligation to decide between the two.

The committee's report, whatever form it will take, will be purely advisory, and will leave the final disposition of the issue up to the railroads. The Council is without power to comcases. If the practice of the last meet- ture, and will require extensive sur-

by a flying piece of stone yesterday afternoon while blasting rock near the Belle Isle Works. His right checkbone was fractured, and one of his fingers was broken. He was treated by Dr. M. F. Torregrosa, of the city ambu-lance, and taken to the City Hospital.

The rush followed the publication of an announcement by Mr. Jackson, one of the commissioners appointed in the case by the court, calling for all de-positors entitled to dividends of \$2 and less, to call at the office and leave heir names. The classification was made necessary because of the expense involved in satisfying individually chains of this size, many of which were for as low as 50 cents.

The advertisement caused the spread of the report Juat all claims would be of the report Jhat all claims would be adjusted, and colored depositors responded in force. When Mr. Jackson arrived at his office yesterday morning, 200 were waiting and more were coming on each trip of the elevator to the eighth floor.
